

## Dura\*Soft® Surgical Foot/Ankle & Univ Wrap

### Ideal Application

The universal design provides continuous cold therapy to various areas of the body. The DuraSoft products can effectively penetrate surgical dressings to decrease pain, edema, and secondary hypoxic tissue injury.

### Features and Benefits

- DuraSoft inserts can be frozen and exchanged to provide continuous cold therapy
- The nylon wraps and elastic straps provide a universal fit and effective compression
- Ultra-wick fabric with antimicrobial protection
- The DuraSoft products can be used repeatedly to provide years of long term use for rehab and/or chronic conditions.
