

## Telescoping TROM™ Ideal Application

TROM offers state-of-the-art range-of-motion control and locking capabilities. Only TROM allows flexion and extension adjustments at the touch of a button and a quick lock from 0 to 90 degrees in 10-degree increments. The ease of use and versatility of the TROM can support a variety of protocols following major ligament surgery, meniscal repairs, patella realignment, regenerative chondroplasty and stable femoral fractures.

### Features and Benefits

- Innovative, easy-to-use hinge
- Quick-lock mechanism from 0 to 90 degrees
- Easily size and custom fit the brace to the patient
- Buckles allow for fast and easy strapping
