

No one should have to  
dance around knee pain.

Help your patients stay light on their feet with the new DonJoy® OA ADJUSTER.

Easy to use, the DonJoy OA ADJUSTER is just as easy to wear. Weighing only 23 ounces, it's the most technologically advanced patient-ready knee brace available. The Lock and off-Load Technology™ helps relieve knee pain and pressure, while the Four Points of Leverage design stabilizes the knee during every move — all without the need for surgery. Clinically proven and tested, the OA ADJUSTER can help your patients keep up with their active lifestyles. Not to mention, their dance partners. Call 1.800.336.6569 or visit [www.donjoy.com](http://www.donjoy.com) for more information about our entire line of knee osteoarthritis braces.
